PLAN GOALS

CONNECTING AND AIDING ASSISTANCE PROGRAMS

We will help programs connect and collaborate to aid in fulfilling their mission to serve women and families. These connections are the core of PLAN and informs all of what we do.

CONNECTING AND ENGAGING THE COMMUNITY

We want communities to know where to find help for themselves and others, and to actively engage in programs that serve women and families.

DEVELOPING STRATEGIES TO FILL SERVICE GAPS

By developing comprehensive lists of services, we will identify underserved geographic regions and categories of care that are currently unavailable. With this clear understanding of need, the entire network can work together to fill those gaps.

“We need PLAN...if we would just work together and organize...we could change the culture, where children and families thrive and communities support one another.”

-Meaghan Lane,
Catholic Charities of the Diocese of Arlington,
Pregnancy and Adoption Services
