PLAN GOALS

CONNECT AND AID ASSISTANCE PROVIDERS

We help providers collaborate to aid in fulfilling their mission to serve women and families. These connections are the core of PLAN and inform all we do.

CONNECT AND ENGAGE COMMUNITY ORGANIZATIONS

We want communities to actively support providers that serve women and families. Communities will also benefit from knowing where to find help for themselves and others.

STRATEGIZE TO FILL SERVICE GAPS

We work with the PLAN network to analyze geographic and service gaps revealed by our directories. With this information, we engage assistance providers and community organizations to develop strategies to create or expand programs in areas of need.

“We need PLAN...If we would just work together and organize...we could change the culture, where children and families thrive and communities support one another.”

-Meaghan Lane, Program Director,
Catholic Charities of the Diocese of Arlington,
Pregnancy and Adoption Services

Help for Pregnant/Parenting Women and Families

PRIMARY NETWORK:

Assistance providers collaborate to serve women and families but are not formally or legally affiliated and do not support or refer for abortion.

EXTENDED NETWORK:

Assistance providers are listed based on publicly available information and may not meet requirements to be in the PLAN primary network.

“It troubles me deeply to think that if there were a substantial increase in unplanned pregnancies and births—our community would be completely unprepared to support these mothers and children. The caring and compassionate thing to do is to be ready to help. That is the reason for PLAN.”
